

# Olivia Newton-John, Someday

There's only one way to go when you're up too high  
You've gotta come down; you've gotta come down  
And there's only one way of saying the word goodbye  
You've gotta come down; you've gotta come down

You've gotta be sure you're not throwing your life away  
You know I can say you'll regret it someday

But someday, many tears and far away  
There's gonna be something that's gonna make you want to stay  
And if someday you should wake and want me near  
I'll still be here

There's only one thing to do when you reach the end  
You've gotta let go; you've gotta let go  
And there's only one scene to play when it's all pretend  
You've gotta let go; you've gotta let go

You've gotta be sure you're not throwing your life away  
You know I can say you'll regret it someday

And you know that someday, when there's no one sleeping on your mind  
You're gonna wake up and see tomorrow isn't hard to find  
And if years don't heal the memories you feel  
I'll still be here  
Someday  
And if someday you should wake and want me near  
I'll still be here  
Someday
