

Oman Freestyle, Without You

I see your face, inside my mind again
I hear your voice, laughing aloud again
I know your thoughts, even before they're said
I miss the way you wanted to see me again

It's all right here
The way that I feel for you
And I'm not right here
Can't go on without you
Without you

Laying in bed, wasting the day away
Wondering how you might have felt today
It hurts my head whenever I hear your name
I never thought that I'd never see you again

And it's all right here
The way that I feel for you
And I'm not right here
Can't go on without you
Without you

And it's all right here
The way that I feel for you
And I'm not right here
Can't go on without you
Without you
