

Omnisoul, Float On The Air

Since you've been gone I've been walkin'
All around town.
When you were here I was flyin'.
You couldn't get me down.
You hit me by surprise.

When I stepped into the morning
I could only see the moon.
I could only tell your memory by its stain,
But I was sure that I'd see sun;
And I was sure that I'd see you.
I guess I'll cross the universe to say:

With you here
We float on the air,
Float on the air we breathe.
You here
We float on the air,
Float on the air we breathe.

I should be just a bit pissed off.
You left me with no sign,
But I'm fine.
I need a second to remind you
You have something that's mine,
And I'm coming to speak my mind.

I step into these mornings
I can only see the moon.
I can only tell your memory by its stain,
But I am sure that I'll see sun;
And I am sure that I'll find you.
'Cause all I needs a chance for me to say:

With you here
We float on the air,
Float on the air we breathe.
You here
We float on the air,
Float on the air we breathe.

Na Na Na Na Na Na...
