

# Omnisoul, In The Dark

Only the loneliest nights  
Help us find the good times  
We've had in life.  
Everyone under the sun  
Came in second once or twice,  
And that's alright.

'Cause when you find yourself in the dark  
And you try to hold on to it,  
You grab ahold on to it.  
Time will find a spark.  
Sometimes it leaves you sad,  
But you gotta hold on to it.  
'Cause sometimes light won't do it;  
Show us what we've had.

Sit back and hold on tight.  
Welcome to this ride we call life.  
Just when you think you are done  
One more punch may come,  
But stand up and see both sides

'Cause when you find yourself in the dark  
And you try to hold on to it,  
You grab ahold on to it.  
Time will find a spark.  
Sometimes it leaves you sad,  
But you gotta hold on to it.  
'Cause sometimes light won't do it;  
Show us what we've had.

This couldn't be your first cloudy day.  
Let it help you see that  
Good times are nothing without the bad.  
So, don't get so mad when

You find yourself in the dark  
And you try to hold on to it.  
You grab ahold on to it.  
Time will find a spark.  
Sometimes it leaves you sad,  
But you gotta hold on to it.  
'Cause sometimes light won't do it;  
Show us what we've had
