

# Omnisoul, The Greater You

Don't give up 'cause you have to fight.  
Show the doctors they're not right.  
You are not infected.  
You were just neglected.  
You can be a bright star.  
They will see who you are:  
You, only for you.  
Forget those nights,  
Oh you, only for you.  
Use this life right.

Don't beg son.  
That will just delay love.  
So, just wait son.  
Unexpected moments bring love.  
Patience makes your world much greater.  
The greater you.

How can you say you don't feel loved?  
People stare with their mouths dropped.  
Every single note played touches them in a way.  
You are such a bright star.  
They can see who you are:  
You, only for you.  
Forget those nights,  
Oh you, only for you.  
Use this life right.

Don't beg son.  
That will just delay love.  
So, just wait son.  
Unexpected moments bring love.  
Patience makes your world much greater.  
The greater you.

You were not infected.  
You were just neglected.  
You can be a bright star.  
They will see who you are
