

# One-21, I Can't Wait

They say the heart grows fonder  
I hope yours won't grow farther  
I take one look at your picture and I'm falling in love all over again  
Well it's cool to see the X-wing fighter  
and the places where Pee Wee sat  
But somehow it's incomplete

Everynight I'm stinking and I'm thinking of you  
I lay my head on a foreign bed and I'm lonely  
Shows over the hum's still in my head  
And I'm sleeping in my clothes again  
So many things you haven't seen

(chorus)  
I can't wait  
to take a ride down the avenue  
I can't wait  
like we're the only two  
I can't wait  
we don't need anything to do  
(with nothing to do)

Walking on the streets of California  
Trying to talk to you  
haven't been gone that long baby  
Maybe a day or two  
But don't you know that it seems like forever  
Whenever I'm away from you

The only problem about being here is that you're not  
The further and further I am  
Tonight my watch will stay on Philly Time
