

# One Fine Day, My Revolution

I feel like the world turns against me right now  
everyone knows what's best for me  
but I have my own goals now  
own goals now  
don't you see that is my time to rise and shine

this is my revolution  
I'm goin' my way  
why can't you see that it's  
my revolution today

you want me to match with your blueprint of life  
but I can't breath in this golden cage  
let me live my dreams now  
my dreams now  
don't you see thas this is my time to rise and shine

this is my revolution  
I'm goin' my way  
why can't you see that it's  
my revolution today

you'll never know what it really means  
never know how it really feels  
never know that the time is now  
to go your own way

you never will experience  
to have your heart as your best friend  
and how it is to challenge fate  
cause you are too late

this is my revolution
