

One For The Team, Apples

Oh, hey, yeah, where's it at, where you been?
Well, thanks, man, I've been out with some friends
Now I won't take it too hard

I guess that's what it's like when you're being real strong
Act like it's nothing when you're asked what is wrong
Now I can see it's gone

I know, I know, it's better than before
I know, I know, it's better than before

Yeah, man, now I'll wait for you here
I'll put it together over a couple of years
I'll be ready when you get home

I'll build it up, build it up, build it up strong
So you know where you stand when you're gone
No, I'm gonna bring it back

I know, I know, it's better than before
I know, I know, it's better than before

I know what you put you through
That'll all include anyone but you
I know what you hold onto
That'll all include anyone but you
