

# One Man Army And The Undead Quartet, Bulldozer

I'm under attack  
This sickness is reaching for me  
It's getting under my skin  
This insect must be terminated

Yeah, I like you better dead  
You demon off the leach  
And as the rotted flesh is aging  
This world is getting nicer

So don't question my motive  
You're the reason I fucked up  
Don't question this mayhem  
You're the reason of anger  
Unleashed and justified  
Bulldozer Frenzy  
Over and over again

I'm so confused  
A loud noise penetrating my ears  
This virus is killing my brain  
Mutha fucka die!!

Yeah, I like you better dead  
You demon of the leach  
And now as I piss on your grave  
This world is getting nicer

So don't question my motive  
You're the reason I fucked up  
Don't question this mayhem  
You're the reason of anger  
Unleashed and justified  
Bulldozer Frenzy  
Over and over again
