## One Night Only, Bring Me Back Down

All I want
To bring me back down
Is your tired blue eyes
That follow me round

Dressed in white And starting to shine My head is full Of a beautiful sound

Light stands round us The face is love And the sound Shall slow

Bring me back down
Wherever you are
All that I want is you
Bring me back down
Wherever you are
All that I want is you
Watch her move so slow
Move so slow
Bring me back down

All I need To bring me back down Girl, pull on the ropes Said I'm safe on the ground

Light stands round us The face is love And the sound Shall slow

Bring me back down
Wherever you are
All that I want is you
Bring me back down
Wherever you are
Cos all that I want is you
Watch her move so slow
Move so slow
Bring me back down

Bring me back down
Wherever you are
All that I want is you
Bring me back down
Wherever you are
All that I want is you
Watch her move so slow
Move so slow
Bring me back down
