

One Sad Horse, Almost

Im trying to hear what you say
Ive tried not to get in your way
but I cant get over you
no, I cant get over you

I tried to forget you were mine
tried to leave you behind
but I cant get over you
no, I cant get over you

I just cant go on like this
go on like this
but I just cant move on

Sometimes its almost ok
sometimes I feel like Ill drown
sometimes I wish that we never met
but mostly I just wish that you were around

You got your life now, I know
and this was a long time ago
but I cant get over you
no I cant get over you

Sometimes it almost ok
I almost feel fine without you around
sometimes I hate you for starting a fire
then watching it all burn down
Sometimes its almost ok
sometimes I feel like Ill drown
sometimes I wish that we never met
but mostly I just wish that you were around
