

Onelinedrawing, Smile

1, 2, 1, 2, 3, 4

so put it up on your face hallelujah
and these days will all go by
anything i can do to help you through it
i just love to see you smile

faith i got faith
well its dangerous to worry so much
i should've known better than to get in your way
hey thats something
hey ya hey ya anything i can do is
hey ya hey ya anything i can do is

so put it up on your face hallelujah
and these days will all go by
anything i can do do you help you through it
i just love to see you smile

grace i like grace
and its dangerous to give in so much
i should've known better than to get in your way
hey thats something
hey ya hey ya anything i can do is
hey ya hey ya anything i can do is

so put it up on your face hallelujah
and these days will all go by
anything i can do to you help you through it
i just love to see you smile

hey ya hey ya anything i can do is
hey ya hey ya anything i can do is

so put it up on your face hallelujah
and these days will all go by
anything i can do to you help you through it
i just love to see you smile

i just love to see you smile
so put it up on your face hallelujah
and these days will all go by
anything i can do to you help you through it
i just love to see you smile
