

OneRepublic, You Were Loved (feat. Gryffin)

I hope that you finally found it all
All the things that you said that you needed after all
All those times we had, they left a mark
And I know life goes on but I miss you in the dark

Days turn to years, turn to stories we tell about
All of the good times and times that were hell when

We were young, we were broke
We were chasin' a fire and watchin' it turn to smoke
And some of us just let go
You got lost, had enough
Time, it did what it does and turned what you had to rust
But wherever you are, understand me

You were loved
(Loved, loved, ooh)
You were loved
(Loved, loved, ooh)

I hope that our paths, they cross again
'Cause I'm dyin' to know all the places you have been
Some day when the future meets the past
That's when we'll make up for all of the years that went so fast

'Cause days became years became stories we tell
That I know you can't deal but here's wishin' you well

We were young, we were broke
We were chasin' a fire that suddenly turned to smoke
And some of us had to let go, yeah
You got lost, had enough
Time, it did what it does and turned what we had to rust
But wherever you are, you should know

You were loved
(Loved, loved, ooh)
You were loved
(Loved, loved, ooh)
You were loved
(Loved, loved, ooh)
Loved
(Loved, loved, ooh)
You were loved
(Loved, loved, ooh)
(Loved, loved, ooh)
