

# Ookla The Mok, Super Powers

I got bitten by a radioactive bug  
I tried an experimental drug  
I went out for a stroll on a gamma testing range  
I found an enchanted Uru cane  
I made a serum that made me small  
I modified the serum so it would make me tall  
I got radioactive isotope in my eye  
A dying alien helped me accessorize  
I gained the proportionate strength of a spider  
Now I'm invincible and I can fly  
I lost my sight and my other senses were heightened  
I'm gonna put on my pajamas and go fight crime

CHORUS:

Now I'm a super hero (now I am a)  
I'm a super hero now (super hero)  
Now I'm a super hero (I'm a super)  
I got my super powers (hero now)  
My best friend and my girlfriend (and her brother)  
went into space  
Who'da thought we'd get bombarded by cosmic rays  
It turns out I'm the last of a powerful alien race  
My mother formed me from a lump of magic clay  
I'm given super powers by a yellow sun  
I studied under the Ancient One  
I got an adamantium skeleton  
Some grizzled old wizard taught me a magic acronym  
Now I got the wisdom of Solomon  
And the Strength of Hercules  
I have memorized what "AZAM" was  
But I still fight evil in my red pajamas

CHORUS

I gotta get me a helicopter  
And you can get a jet plane  
We'll take out their surveillance tower  
We can make up code names  
And when you get home at the end of your day  
I'll pack your parachute and put away  
Your utility belt and gas grenades  
You were never meant to see  
I showed you my secret identity  
I suppose that I could always hypnotize you  
If I wanted to  
But I propse another thing  
You can wear my decoder ring  
We can have matching hovercraft  
We can go undercover  
After all we might just fall like stars from the sky  
You know too but I know you  
you won't be happy til you try  
Super hero team-up  
Cowboy secret space detective true love  
Super villain two-in-one  
The bad guys have taken over Washington  
Don't be scared cause I'm prepared  
There's an emergency but I'm ready  
Cause fortunately I'm a super hero too  
I got super powers just like you  
Now I'm a super hero  
Now I'm a super hero  
Now I'm a super hero  
I got my
