

Oordaya, On My Way

Looking for you whilst on my way
Now that's a new you, back to the same old thing
Looking for you whilst on my way
Now that's a

Feel up and speed it up up my chest like that
It's a new present, I pass?
Pray that this one wouldn't last
Feel the regret right now
Up in my feelings I go, up in my feelings I roll
Oh, you never wanna let me go 'til I take control
I'll take control just like that
Tell me what you wanna know, what I got
For you and you know it's on, I'll be out
Catch you when I'm on the road, passing you by, by

Looking for you whilst on my way
Now that's a new you, back to the same old thing
Looking for you whilst on my way
Now that's a new you, back to the same old thing
Looking for you whilst on my way
Now that's a new you, back to the same old thing
Looking for you whilst on my way
Now that's a

You got let you go, but where you at?
Tell me when you feel like passing by
Reaching out tonight
4x4 on the West, down the way
Ride alone in the East, I'll be out today
I'll be out today, tonight, either way, it's
Ride alone above the clouds, thinking 'bout the Cloud 9
City lights on, but your face be down
Cut my chest for your sight tonight

Feeling my chest like that
It's a new present, I pass?
Pray this this one wouldn't last
Feel the regret right now
Up in my feelings I go, up in my feelings I roll
Oh, you never wanna let me go 'til I take control
