

# Open Hand, Waiting For Katy

This is the day  
So you say you'll keep me from harm's way  
You're not afraid to bleed,  
You're not afraid to break  
Nicotine and sleep bring you back to your feet  
Can you keep your love beneath me?

And I say don't run away,  
Cause I got roses in my hand

This is your day  
So you say,  
Take it on your way,  
You're not afraid to bleed,  
You're not afraid to break  
As for me,  
I never know what I need  
Can you keep your love beneath me?

And I say don't run away,  
Cause I got roses in my hand

I wish you'd stay  
Why can't you try to understand?  
Even though I should,  
I don't  
Even though we could,  
We won't  
She took my hand and said  
"Let's go home"
