

# Opiate For The Masses, Goodbye

We walked on golden fields  
and watched them wither at our heels  
it's time we let their mothers cry  
strange how that well ran dry  
like lillies hang their heads to die  
we'll kiss this all goodbye

I watched you fall apart  
I watched you from afar  
I watched and just felt numb

If I could ask you just one thing  
How you gonna say goodbye?

We lie on barren fields  
and shed a tear as pastors kneel  
I pressed my face against the sky  
we shouldn't ponder why  
there's nothing left for us inside  
when I've already said goodbye

If I could ask you just one thing  
how you gonna say goodbye?  
After I've given you everything  
how you gonna say goodbye

How you gonna say

GOODBYE!  
GOODBYE!  
GOODBYE!
