

Opiate For The Masses, Heaven

Thank you so much for your confidence in me
but you have been so wrong
I have tried so hard to find your god in me for
so long, so long, so long

I'm right here with you
I'm at your service
You told me "NO!"
and so I don't deserve this

I can't get to heaven
cause heaven's a place that don't want me

point your finger and I'll pay attention
what more do you want from me
all you showed me was your thought prevention
and it has no harmony

I was there with you
I was your servant
you told me "NO!"
and so I don't deserve this

I can't get to heaven
cause heaven's a place that don't want me
I can't get to heaven cause heaven's a place
that I don't wanna be
