

# opm, Better Daze

Assination from the Kid of Kreation  
Blazin' disaster by devious station  
Face it  
A permanent vacation  
For tastin' from the tree of temptation  
Blazin' and hazin'  
but never quite phasin'  
The movement of the stars  
from the world on rotation  
Copin' by smokin' LA to Oakland  
In some dreams I'm drownin  
In others I be chokin'

Money money make the world go round  
Money money just bring me down now  
Money money make the world go round  
And I'm lookin' for the higher ground  
Hey now lets start at the beginnin'  
So long I lived a life of sinnin'  
I know I got to change my ways  
I'm waiting on better days  
Hey now lets start...

I don't give a fuck and let me tell you why  
I woke this morning and I got high  
The day passed and the stars went up  
I made my mark and I heard pop pop?  
There's a voice in the back of my head  
Another death more bloods been shed  
Evil lurks in the hearts of men  
Dollar signs on every sin

Money money make the world go round  
Money money just bring you down  
Money money make the world go round  
And I'm lookin' for the higher ground

Hey now lets start at the beginnin'  
So long I lived a life of sinnin'  
I know I've got to change my ways  
I'm waitin on better days and

Hey now lets start at the beginnin'  
So long I lived a life of sinnin'  
I know I've got to change my ways  
I'm waitin on better days

Money talks and everybody listens  
Nobody stops on the point that they're missin in the system  
Whatever price could be right  
Even if the price is the loss of another life  
We used to be stick up  
Kids regret the things that we did  
Tryin to live positive  
When friends were doin this

Murderous attackers  
Battlin fashions  
Benjamins and Jacksons at the heart of the actions

Think you would be missed if you didnt exist  
So stay the the hell off my muthafucking shit list !

Money money make the world go round...
