

Orange 9mm, Kiss It Goodbye

You make it seem so easy
Never know how you got so far
You might think that I'm crazy to stand in your way
And shove you back to the background
A lot of people get lazy
You walk in and you dig their graves
I kinda rather get crazy
'cause I ain't gonna fall and I ain't gonna back down
You can say what you say still play your games

You're just K-I-S-S-I-N-G
Kiss it goodbye
You're gonna fade away
You're just K-I-L-L-I-N-G
Kiss it goodbye
'cause you're killing me

If I had my own way now I would never let it get so far,
So now I feel kinda jaded 'cause I been here before
It seems that somehow I let myself get sedated
And thrown back into those arms
With a hold so jagged I start to lose myself
But I ain't gonna get smashed down...
