

Orbit, Orbit

She's a car broken down on the highway
She's a good little girl but her daddy don't know
I say
My bed is just a moment away
She stops herself she holds herself and
She shakes her head
She says
I'm all alone in this town
Gonna buy myself some brand new things
I'm gonna get myself together
Gonna break myself and take my self to
Some other time...
Baby come back
Make yourself whole
Baby come home
Choke the medicine down
Brand new dress brand new shoes brand new cup of tea
Don't scratch yourself don't hurt yourself don't fall down on your face
She says I made my bed I'm going to sleep in it
But I'm going to buy myself some clean new sheets...
Baby come back
Make yourself whole
Baby come home
Choke the medicine down
Choke the medicine down
Choke the medicine down
Choke the medicine down.
