I dive to the night like a black cat

Got nine lives

Gotta get up cut someone

Don't beg for your mercy

Save time for life and don't stop tryin'

Listen up put your hands up

You gotta fight the nightmare gotta protect your soul

Gotta get down fight this pressure

Gotta get down and fight your own

Who's that? Your worst nightmare a girl so true that's livin' in this world

That's right your worst nightmare a girl so true that's livin' in this

So pay the price and close your eyes and play the game and I'll make you cry

Come on

No way out

She's loaded but you gotta trigger

Baby it's a rush so fast that you just can't see me come on now

You know I got my blood and take a washing through my veins!

Ha! Can't catch me now

Haha! Yeah better just break me now

Well G.O.D. gonna punish me now?

And you can never ever touch me now 'cause

I am the rule I made the rule

Betcha gonna own the night gonna

Goodbye to the one last kiss and what's so lovin' no time to sleep!

(So pay the price and close your eyes and play the game and I'll make you cry)  
(So pay the price and close your eyes and play the game and I'll make you cry)

Silently swimming in the stardust  
Were the heavenly projectors  
My wings were broken on  
The edge of the knife  
How many times in attacking have I died and been reborn  
My undying soul

Today I'm just a player  
I don't feel any shame  
My dream, and all that comes with it  
I bravely give up to the world  
Today I'm just a player  
I don't feel any shame

Silently swimming in the stardust  
Were the heavenly projectors...

How many times in attacking have I died and been reborn  
My undying soul

Again, I play without the rules  
And place upon myself the gunfire  
And that is all I know  
I don't want another role  
Today I'm just a player  
I don't feel any shame  
Player... player... player... (Repetes)
