

Os Mutantes, Baby (1971)

You know, you must take a look at the new land
The swimming pool and
The teeth of your friend
The dirty in my hand
You know, you must take a look at me

Baby, baby
I know that's the way
Baby, baby
I know that's the way

You know, you must try the new ice cream flavor
Do me a favor
Look at me closer
Join and so go far
And hear the new sound of my Bossa Nova

Baby, baby
It's been a long time
Baby, baby
It's been a long time

You know, it's time now to learn Portuguese
It's time now to learn what I know

And what I don't know
And what I don't know
And what I don't know

I know, with me everything's fine
It's time now to wake up your mind
We live in the biggest city
Of South America
Of South America
Of South America
Look here
Read what I wrote on my shirt

Baby, baby
I love you
Baby, baby
I love you
Baby, baby
I love you

Baby, maybe
I love you

Baby, baby
I love you

(You do)
