

Our Lady Peace, Somewhere Out There

Last time I talked to you
You were lonely and out of place
You were looking down on me
Lost out in space

Laying underneath the stars
Strung out and feeling great
Watch the red orange glow
Watch it float away

Down here in the atmosphere
Garbage and city lights
Gonna save you're tired soul
You're gonna save our lives
Turn on the radio to
Find you in satellite
I'm waiting for the sky to fall
I'm waiting for a sign

And all we are
Is all so far

You're falling back to me
The star that I can see
I know you're out there somewhere out there
You're falling out of reach
Defying gravity
I know you're out there
Somewhere out there

Hope you remember me
When you're homesick and need a change
I miss you're purple hair
I miss the way you taste
I know you'll come back some day
On a bed of nails I wait
I'm praying that you don't burn out
Or fade away

And all we are
Is all so far

You're falling back to me
The star that I can see
I know you're out there somewhere out there
You're falling out of reach
Defying gravity
I know you're out there
Somewhere out there

You're falling back to me
The star that I can see
I know you're out there

You're falling out of reach
Defying gravity
I know you're out there
Somewhere out there

You're falling back to me
The star that I can see
I know you're out there somewhere out there
You're falling out of reach

Defying gravity
I know you're out there
Somewhere out there

You're falling back to me
I know, I know

You're falling out of reach
I know
