

Outbreak, No One Cares

It's time to wake up and get it through your head
your games are coming to a f**king end
You think you're something other than a fake
but watching you pose is more than I can take
You'll die a nobody and that's fine with me
cause you'll never understand or ever see
that you're a f**king lowlife and you're going nowhere
no one likes you and no one cares

It's time to wake up and get it through your head
your games are coming to a f**king end

You think you're something other than a fake
but watching you pose is more than I can take

You'll die a nobody and that's fine with me

cause you'll never understand or ever see that you're a f**king lowlife and you're going nowhere, no
lets go

F**k, f**k, f**k you

no one likes you

no one cares

no one likes you

no one cares

no one likes you

no one cares

no one likes you

no one cares
