

# Outlawz, When Ure Heart Turns Cold

[Spoken poem]

When your heart turns cold  
It causes your soul to freeze  
Spreads through your spirit  
Like a ruthless, villain disease  
The walls that were once down  
Now stand firm and tall  
Safe from hate, love, pain, joy  
Till you feel nothing at all  
When your heart turns cold  
A baby's cry means nothing  
A dead corpse is trivial  
Mothers neglecting children is daily  
Lonliness becomes your routine friend  
Death seems like tranquility  
Sleeping is never pleasant if you even sleep at all  
We forgot our deals and turn off the reason  
Till the product is sold  
You don't understand how I behave  
Wait till your heart turns cold

[Verse 1]

Know my cold heart turns warm at the front door  
Love my family, love my Outlawz  
But when I step outside I feel my blood freezing  
Question if it's a blessing that 'm still breathing  
Sometimes I wonder if I'm better off dead  
They say God don't make mistakes but what if he did  
But what if he didn't  
So I'm supposed to be living this life that I'm living  
And feeling how I'm feeling  
Black rain shower, the pain builds character  
My heart turned cold, yeah I learned to be a scavenger  
Listen, no love received and no love given  
Don't blame us blame the hate that you gave the children

[Verse 2]

No remorse for life and y'all forced to fight  
In the event of my demise I hope God's the guiding light  
In hind's sight, I'm lost, misguided by lies and truths  
Confused bout what to do, refer to smoking, drinking brew  
We be the hearts of the heartless, riding few from the bunch  
Bosses have falled, bosses have caught you don't be the next one  
Sleeping never pleasant even if you sleeping at all  
The reason that I'm breathing is I'm an example for y'all

[Hook]

When your heart turns cold  
It causes your soul to freeze  
Spreads through your spirit like a deadly disease  
When your heart turns cold  
You feel nothing at all  
A baby's cry means nothing at al  
When your heart turns cold  
A dead corpse is trivial  
And death seems like tranquility  
When your heart turns cold  
I thank God above  
Through the pain, hate, joy, and love  
When your heart turns cold

[Verse 3]

Your soul is numb, your days are numbered (Cold)  
Your kids cold, get old and younger (Cold)

Your loneliness becomes your only homie  
So your sorrow all alone is just for your eyes only (Yeah)  
The world against you and the odds are stacked (They stacked)  
Your pockets short and your girls a wreck (That bitch)  
Lose a piece of you survive all that  
Plus you young and you black, it's hard enough being that (Yeah)  
Your mom gone ain't nobody never cared (Yeah)  
You call your mom but nobody never there (Shit)  
Now it's on, you need a way up out of here  
You click on some be next shit

[Verse 4]

When your heart turn cold that's when the heat go off  
And the means die slow, that's how the streets show off  
Cemetaries filled with vicitms those with cold hearts  
Deep in the dark when the pistols spark  
My life one big movie of strife  
Scene after scene filled with nothing but sad dreams  
No wonder my heart pumps ice water  
Gotta live according to the lessons that life taught you  
Lonley is the road of a tortured soul  
Who only knows the roles of a heart turned cold  
Caught in the middle when the pistols blow  
That's how it go when your heart turns cold

[Hook]
