

Oval Opus, Giving It All 2 U

I remember the first time we met,
I started to tremble just looking at you
How you took my breath away with
just one glance, I don't know
But I know that I liked it.

I give you all my everything; all that I can give.
I promise you I'll be faithful, beside you till the end
I'll give you all that I can be
With everything I have it's true, I'm giving it all to you

Well I remember the first time we kissed,
the magic we felt when you touched my lips
How you took my breath away with
just one kiss, I don't know
But I know that I loved it.

It when you look in my eyes that my sould runs wild
I always bite my lip cause baby cause baby you make me speechless
When you said hello
I knew it was you

I give you all my everything; all that I can give.
I promise you I'll be faithful, beside you till the end
I'll give you all that I can be
With everything I have it's true, I'm giving it all to you
