

Oval Opus, Whisper

Said a whisper last night while I held you,
and I told you that I needed you forever
I told you everything I want to live for,
and how we could be
When the words come to me and it's magic you know,
and I find that I'm rhyming away where I go,
and I feel that the wisdom is coming,
and I know.....

Magic in the way you move,
and every time I tell you that
I want to give you something
for something so true,
and the way that you can know me,
and the way that you can tell me,
and you know that I am searchin'
and I'm searchin' for you,

and the way you're gonna love me when I go up and tell you that
I'm gonna need you when I get there,
In my dreams, in my futures, in my prayers too,
and like a whisper in the wind

I can see you there,
Before I cry
It doesn't matter where I'm going
tonight.....
You're gonna be there with me.

Took you to the park
and I tried to tell you something,
while we're looking at the sun
as if we're staring at the moon,
and I can see the stars,
and the bark on the trees
I can see the way they move,
and the way they feel

When I look into your eyes,
and I find you there,
I can see that it's magic
that's in the air,
and it's somethin' I do,
and it's something I say,
while the hands on the clock
they are ticking away

And I feel
that I can love you forever,
If you just let me have the chance
I'll love you,
forever.....
Be with me.

I can see you in the mountainside,
I can see you in the wind;
the way that the ocean is flowing when I see the sun
setting in the west again
and everything that I'm goin on I'm though I'm not there
Oh Im driving up the road with all my cares,
and my mind is racing a million ways,
I can see that you're.....

In my mind today,

you know that i miss you
Soon I've got to come back home
to see you.....
You're my girl.
