

Overhead, Slow Dive

I used to think that
My devotion used to betray your heart
That compromised love
Fades with the sun
My innermission still haunts me
Live through art
Till I die

But are we innocents ?
Passionately
It should crawl any moment
At the end of line

I know today
How the issues lay on time
I live in peace
My secret sun aside of you

Towards innocence
I feel our seeds
Rising any moment
Within living cries
