

Overkill, Damned

Took a little time, before we're done to love me
Took a little more than I ever did before
Took your bad intentions
Took all your excite
And if I didn't mention
Took my inhuman rights
It's a heavy-weight title bout
The more I live the more I find out

[Chorus]

Damned, for if I love me
Damned, for if I care
Damned, for all the make you feel betters
As the damned scream this ain't fair
Damned, for if I love me
Damned, for if I care
Damned, for all the make you feel betters
As the damned scream this ain't fair

Had a little time before I went and f**ked me
Had a little trouble, getting up off the floor
Had you're I'm not like that
Had a hand up in my face

Head bobbing like a wet rat
No love for the human race
The more fuel, the farther I go
The more I live the more I...
No-no-no

[Chorus]

Damned if I do and damned if I don't
Damned if I will and damned if I won't
Damned for your screamin' that this ain't fair
God damn your screamin', I don't care

Took a little time before you tried to f**k me
Made a little spot for you right there, on the floor
So f**k your good intentions
F**k your human rights
F**k your finger in my face
This time I'm gonna bite

[Chorus]
