## Overkill, Genocya

I'm your destructive pride Your homegrown, goddamn genocide The standard behind which you hide I'm at your door, right by your side... so

Go - high Go - higher

Go - high Go - higher

I'm the hate, the jealousy
I can magnify the agony
The self-destructive qualities
So won't you come and go with me... and

Go - high Go - higher Go - high

Go - higher

My lack of tolerance nice as you please My interference put them down at their knees

I am your hopeless, despondent Your derelic hole I am your genocide The mass inflicted cyanide

I am your illness, your ailment The hole in your soul I am your genocide The mass inflicted cyanide

My lack of tolerance nice as you please My interference put them down at their knees

I am your hopeless, despondent Your derelic hole I am your genocide The mass inflicted cyanide

I am your illness, the ailment The hole in your soul I am your genocide The mass inflicted cyanide

Go - high Go - higher

Go - high Go - higher

Go - high

Go - higher

Go - high

Go - higher

Go
