

Overkill, No Lights

You know when I think of you
And I feel to let it out
For what we did pursue
And all we were about
And when I think of Who
Flooding me with light
Don't think you need to hear this
Yeah, you did it right

[Chorus]
It's over, but yeah, we have taken the light
It's over, by winning for losing the fight
Over, it's over, it's over
It's gone into flight
Right here by my side
As I ride

I found meaning
In the words that you would speak
And I found strength
Inside the fact that we were weak
And when I picture you
Covered in our rags
If this man shall fall
Who will take the flag

Hard rubber and a wind-blown face
Got a full-blown eight-eight

To get us home
No trouble got an extra ace
A stand-up, throw-up
Never let me be alone
Over, it's over, it's over
You've taken my lights
Over, it's over, it's over
Right here by my side
As I ride

To have known you
Still helps to get me through
And to thank you now
Is all that I could do
And when I motor on
On into the night
I know that you are there
I know you are my lights

Over, it's over, it's over
You've taken my lights
Over, it's over, it's over
Right here by my side
As I ride
There's no light
As I ride
