

Owen, Never Meant

Lets just forget everything said
Everything we did
Best friends better halves
Goodbyes
The other night we realized
We were falling out of love
Don't say never did
The last thing we want to be
Is overly dramatic
I just think its best
Cause you cant miss you forget
So lets just pretend
Everything is anything
Between you and me
Was never meant (x4)
Cause you cant miss what you forget..
Was never meant
