

Oxide And Neutrino, Devils Nightmare

I can be evil, I can be good,
but i don't know if i really should
be evil to those jealous MC's dat want to try and imitate me,
dare you step into my land,
come imitate me like a foolish man,
enter your dreams like Freddy Kreuger,
rip out your brain tha dark intruder.

hellraiser another dimension,
terrorise yuor soul thats my intention,
vampire, count dracula,
bite your neck,
Woo Ha Ha.

Hunt you down
I come tear out your heart
Werewolf I'm coming in dark
Zombified now mummification,
You'll be
If you mess with my patience
