

Oxymoron, Black Cats

Shadowlike they haunt me at night
Horrible dreams to grab my sleep
Whatever I do, wherever I go
They're always near beside

If these turn up there ain't no joy
All I can's detroy
If these turn up there ain't no joy
Nothing works to scare 'em away

[Chorus:]
Black cats, black cats
Always scary, how do I lose em'
Black cats, black cats
An evil omen - Black cats

Stumbling through the streets at night
I was overcome again by this bothersome plague
It didn't come off it's over now
This was the final show
If these turn up there ain't no joy
All I can's detroy
If these turn up there ain't no joy
Nothing works to scare 'em away
