

# Ozark Henry, it's a calling (hear me out)

it's a calling  
it's not a choice  
hunger's never humble  
it's heat not to be borne  
with all that is yes on your side  
with all that is yes on mine  
with all that is pushing offside  
hear me out  
that's why i'm here up in your world  
don't leave me hungry

It's a calling  
a longing for  
it grows like weed and wires  
and leans on what's no more  
with all that is yes on your side  
with all that is yes on mine  
with all that is pushing offside  
hear me out  
i feel so black on your side  
i feel so black on my side  
but all that's pushing offside denies

that's why i'm here up in your world  
don't leave me hungry

it's sad but true  
the only feeling that i have is yours  
that's why i'm here  
with all that is yes on your side  
with all that is yes on mine  
with all that is pushing offside  
hear me out  
i feel so black on your side  
i feel so black on my side  
but all that's pushing offside denies  
'cause you are my sensation  
'cause you are what you are  
'cause you are
