

# Ozark Henry, Vespertine

It's ok to phone the island  
the ferry's just arrived  
with all we all have asked for  
and more, we can't deny  
the love to share illusions  
bears away the palm  
we taste the awful secret  
the hunger never dies  
onwards new tomorrows  
ghosts we keep alive  
vespertine  
the end is where I start  
vespertine  
it's ok phone the island  
the summer's just arrived  
with more than we have asked for  
love is here all right  
history's our future  
ghosts we keep alive  
vespertine  
the end is where I start  
vespertine  
to all our escapes  
to all that really matters  
to you
