

Ozark Mountain Daredevils, On, Darlin'

(PIANO INTRO)

ooh, darlin'

since I've met you, my life's a waste

oooh, darlin'

you're about all that I can take

the first time I saw you, I knew that I wanted you

you just came along and I picked you out

and from that day, I've never been a doubt

I've been knocked-out

I'm so hung up, thunderstruck,

you're just too muuuch

oooh, darlin'

the nights are endless when you're not there

oooh, darlin'

sometimes I wish that I didn't care

and I was still free to be loose like I used to be

but then you come along and hold me close

and tell me that I fill your every hope

I overdose

I can't hold on,

I go headlong,

'till I'm too far gone

(GUITAR SOLO)

I guess that you're the best I've ever had

it seems I never get enough to last

so again, I ask

I'm so hung up,

thunderstruck,
you're just too muuuch

ooh, darlin'

ohhh, darlin' ...

ohhh, darlin' ...

ohhh, darlin' ...

ohhh, darlin' ...
