

Ozma, The Ozma Song

There's this one band that I like to hear
They are the most pleasing to my ear
Keyboards give their sound quite a kick
And their demo songs never make me sick

I first heard your song on the tribute CD
Then we played with you at the Roxy
And I have no problem driving far
For Ryen, Daniel, Jose, Pat, and Star

*Oh Keep us posted on your next show
Oh We're more than delighted to go
O-Z-M-A
Oh We really love your song Lorraine

Ryen is more than a pretty face
On stage he remains in one place
Noticing your orthopedic shoes
While kicking around R2D2

Daniel jumping in his jumpsuit
I'm sure Julia notices you
He's a Back to the Future fan
And he prefers that you call him Dan

*Chorus

Star your first show was at the El Rey
And maybe you'll be singing someday
You're the only girl in the band
And for that we'd like to shake your hand

Pat he's in charge of the merchandise
We talked to you and you're really nice
You skipped some classes to play a show
You're the first one that we got to know

Jose you like the New Kids On the Block
And on stage you really like to rock
You were busy selling shirts
And you're good friends with Nada Surf

*Chorus
