

Ozzy Osbourne, Scary Little Green Men

their colors are blinding me again
the skyline is bleeding black and red
how long /2x
have they been living in my head
how long /2x
we bite our tongues and play pretend

they want us
they need us
they might just try to eat us
they'll greet us
deceive us
say: "Take us to your leader"

everybody wants them
until we meet them
everybody wants them
it's the end
scary little green man, do you believe in?
scary little green man
it's the end
