## P.O.D., Breathe Babylon

[Chorus] Babylon Breathe Babylon

I see you people babylon and on and on Graven images, golden idols and false icons I'm seeking wisdom like Solomon But my antenae keeps on picking up evil transmissions At headquarters I receive my mission Blow up the ruler of the air like nuclear fission So I analyze my weapons, laser guided rifles that shoot spiritual wisdom I think I see enemy warriors, Fragile heathens tryin' to run stuff like mayors So with brotha's that snuff punks, I set up time bombs to destroy the strong holds of Babylon

Babylon Breathe Babylon [8x]

We be tribes under grace, a righteous minority Decadent culture make you forget your spiritual priority Back down by the movement, soldiers who will serve ya Open to be used by God, destroy you like Medo-Persia Jewel of all kingdoms, live evil, purified Hurrah take you down Don't look back, overthrown you like Sodom and Gomorrah arm of the law Guilty of all crimes I be like the great Prophet Isiah Predict your fall over 150 times, got rhymes you could never use For the purpose you be using, I'll dance over your fields Present day Iraq still lies in ruins lies, Schemes, backstab persuasions bumrushed Get crushed by us, this rescue invasion

[Chorus 8x]

Look to the sky, heed the warning The shadow is coming, the shadow is coming [8x]

The plagues are coming, the plagues are coming I feel the breath of the Death Beast [4x]

Misled bureaucracy, full of hypocrisy I gotta steel pulse, looking for a true democracy Destruction, now your walls have fallen Just sitting here waiting for the train to Zion

Sit down in the dust, Babylon without a throne to call your own is 47:1 The city has fallen, she has fallen golden images of it's god Lie shattered on the ground
