

# P.O.D., Ghetto

[chorus:]

I believe that this world believes in love [x 2]

We might never really agree  
On anything about the lives we live  
Between you and me. So differently.

We don't always see things the same  
We should agree to disagree  
If we meet at love we can work it out

[chorus:]

I believe you and I will overcome  
I believe you and I believe in love

Whether you think I'm so confused  
Or if you feel the way I do  
So don't give in to this hate within

Living in this world of pain  
Don't let it bring you down  
The world is a ghetto

[chorus:]

I believe that this world believes in love  
I believe you and I believe in love
