

Pagan's Mind, Entrance To Infinity

A strange reality within, levitating off the ground
Hovering, losing gravity
Casting misery away, entrance higher
Orion's aura is the gate
A heavenly passage - starway

[Chorus:]
Entrance to infinity
The Heaven's passage through the stargate
Orion's eye
Forever is eternity. Silence divine
Orion's eye

Alpha waves through centuries
Calculate complexity received by cosmic majesty
Apparition of the gods, Tellus' base Necropolis
Empiral spheres, infernal fights
Cosmic storms of fire

[Chorus:]
Entrance to infinity
The Heaven's passage through the stargate
Orion's eye
Forever is eternity. Silence divine
Orion's eye

Through the center of time
Beyond light, beyond mind
Heavenly grace, infernal pace
As the secrets appear, like visions so clear
Illuminate skies embracing the gate

The riddle of time, genetically coded minds
Programmed and limited
Wisdom - access denied

[Chorus:]
Entrance to infinity
The Heaven's passage through the stargate
Orion's eye
Forever is eternity. Silence divine
Orion's eye
