

# Pagan's Mind, Exploring Life (Back To The Magic

Awakened from embrace of sorrow  
Heal the spirit deep inside  
Call the new era tomorrow

We will unite as one, and signs will unfold  
Always searching for the key they lost  
Finding true life's essence - uniqueness of our kind

And we travelled, drawn back in time  
To our endless dream lead by starlight  
Horizons of hope calling from within
