

Page France, Up

I heard someone say they couldn't speak
And I heard someone hear they couldn't hear
And I saw someone see they couldn't see me
You see everything here

And I saw someone burning in the bushes
And I saw someone shining like the sun
And I saw all the angels circle 'round us
Up here you see everyone

I saw you floating in a river
With all the holes inside your boat
You were swallowed up by alligators
Up here I watched you float

I heard someone say I love you
I saw a man shoot dead another man
And of course a crowd of people joined around it
I know no one understands
