

Page Tommy, I Can't Change The Way You Don't

I believed I would see a day
You would want me, like I want you
You would need me, like I need you to
There was a moment, I thought time might change your mind
And there'd be a place for me, in your life but
I can't change the way you don't feel
And I can't make you see, what your heart wont see
I can't make you need, what you say you don't need
I can't change you baby
I can't change the way you don't feel
And now as I walk away
I wont look back, I wont break down
What I was living for, I'll have to live without
There will be moments, I'll think how it might have been
But baby now this how it must end, cause
I can't change the way you don't feel
And I can't make you see, what your heart wont see
I can't make you need, what you say you don't need
I can't change you baby
I can't change the way you don't feel
