

Page Tommy, My Shining Star

(Written by Tommy Page, L. Russell Brown & Michael Jonzun)

In this life

Everyone needs some kind of guiding light

In your eyes

I'm seeing a true picture of paradise

And my love for you grows stronger every day

All my wishes came true

When you walked my way

Chorus

You're my shining star

When things go wrong and I can't go on

My shining star

Your light it guides me

You're my shining star

When things go wrong and I can't go on

My shining star

Inspires me

When I'm down

And looking for someone to talk to

You come around

Your spirit it helps me to make it through

All the lonely experiences life has to bring

When you're by my side

I can face anything

Come on, come on, come on, shine

Come on, come on, come on, shine on me

Oh I can feel your light, and it feels so right

I thank God above for giving me your love
