

# Pain, Close My Eyes

Can't see faith through the tears  
of my swollen eyes  
I try to dry  
I pretend it's not as bad as it seems... what a lie

how can we be so blind  
every time a child dies  
people are starving  
rain-forests are falling  
the bombs are dropping from the sky

[Refr.]  
I don't know why - it sticks in my head  
I close my eyes - and it hurts me so bad  
I don't know why - it sticks in my head  
I close my eyes - I close my eyes

I close my eyes.

I look away from this misery  
and I hope the problem will disappear

but it still hurts me every time a child dies  
it's like a knife you stab in my heart  
and twist it, twist it, twist it around

[Refr. 2 times]

I close my eyes - I close my eyes [Repeat 4 times]
