Pain, Close My Eyes

Can't see faith through the tears of my swollen eyes I try to dry I pretend it's not as bad as it seems... what a lie

how can we be so blind every time a child dies people are starving rain-forests are falling the bombs are dropping from the sky

[Refr.]
I don't know why - it sticks in my head
I close my eyes - and it hurts me so bad
I don't know why - it sticks in my head
I close my eyes - I close my eyes

I close my eyes.

I look away from this misery and I hope the problem will disappear

but it still hurts me every time a child dies it's like a knife you stab in my heart and twist it, twist it, twist it around

[Refr. 2 times]

I close my eyes - I close my eyes [Repeat 4 times]
