

# Pain, Crashed

## Crashed

Time is running out, can't you understand the end is coming near,  
we gotta wake up fast, i don't wanna fall, all because of someone  
else, decide your fate, they'll fuck you in, burn above the line,  
destroy your suffering life, we cannot hide (?-- ) the walls are closing in,  
you cannot breathe, there can't be no cure when you bleed,  
i've been to hell and back again, confronted lucifer..(?) i chose a side,  
the end of jesus christ, how pathetic...(?) revenge of the devil,  
i've seen the angels falling, i feel the pain is coming closing in,  
i am the dead i'm crying, i see the devil, he's smiling,  
of all the power of the mighty flames,  
i am the only one that rules now, he's got your soul,  
you'll lose your mind, it's outta control, your gonna die,  
the devil is pissed, i see the angels falling,  
i feel the pain is coming closing in, i am the dead i'm crying,  
i see the devil he's smiling, the devil's got your soul...  
the devil is pissed!
